16/05 : 19 travellers pulled back from Greek shore

In Distress Push-Back

VERIFIED

17.05.2020 / 16:20 / Aegean Sea

Watch The Med Alarm Phone Investigations – 16th May 2020

Case name: 2020_05_16-AEG670

Situation: 19 travellers pulled back from shore

Status of WTM Investigation: Concluded

Place of Incident: Aegean sea

Summary of the Case:

The 16th of May, our shifteam got called by people in Aegean Sea. They were already on shore in Greece. They reported, however, that someone came, pulled them into the water again and destroyed the engine. The people said they had a video, but due to connection problems we did not get more information yet. We were never able to establish another contact with them , and didn't get further information.

We are still investigating the detailed developments and will include potential updates into this report.

Last update: 13:43 Oct 23, 2020
